Are your product brochures always up to date? Nothing is more annoying than receiving a brochure or specifications that contain incorrect or outdated information.

Create product sheets for your entire catalog at the push of a button;

Always use the correct information from your PIM system as a source for your product sheets;

Stay in control of consistency and corporate identity with our handy templates.

Workflow 2.0	Dashboard	Reporting
Syndication		Product Sheets
(Supplier) Portal	Costum plugin	Blending
DAM	Single Sign-On	API Integration
Data Models	Model Manager	Additional catalogs
SRC PIM foundation		

> Relieve your marketing department or product manager

> At the touch of a button, available to everyone

> Always up-to-date data through a direct connection to the source
